DASARADHA RAMI REDDY KESARI

Python Backend Engineer | FastAPI | PostgreSQL | SQLAlchemy |
Async Rest APIs | Docker | JWT, Redis
Hyderabad, Telangana, India

Summary

Python Backend Engineer specializing in building scalable, secure, and high-performance API systems using FastAPI and PostgreSQL. With nearly 3 years of experience, I focus on designing backend architectures that are reliable, efficient, and production-ready. My core expertise lies in asynchronous REST API development, database optimization, and secure authentication systems. I have designed and maintained 100+ async APIs, optimized database performance through efficient schema design and query tuning, and contributed to systems with improved latency, scalability, and deployment efficiency. What I work on: • Building scalable backend systems using Python, FastAPI, and SQLAlchemy • Designing high-performance PostgreSQL databases with optimized queries • Implementing secure authentication using JWT (RS256), OAuth2, and RBAC • Improving performance with Redis caching and async processing • Developing production-ready APIs with strong validation and OpenAPI documentation Tech Stack: Python • FastAPI • PostgreSQL • SQLAlchemy • Async Programming • REST APIs JWT • OAuth2 • Redis • Docker • NGINX • CI/CD • GCP • Linux I enjoy solving backend challenges that require clean architecture, efficient data handling, and practical engineering decisions. I work closely with cross-functional teams to deliver stable APIs and maintainable backend services. Currently focused on backend engineering roles where I can design and scale API-driven systems.

Experience

Karyahub Solutions

2 years 8 months

Software Developer (Python Backend Engineer)

November 2023 - Present (2 years 5 months)

Hyderabad

As a Backend Engineer, I design and build scalable, secure, and high-performance backend systems using Python and FastAPI, focusing on API reliability, database efficiency, and production readiness.

Key Contributions:

- Designed and maintained 100+ asynchronous REST APIs using FastAPI and SQLAlchemy across HRMS, ERP, and event-based platforms
- Improved backend performance by implementing async I/O, PostgreSQL query optimization, indexing, and schema tuning, reducing API latency and improving response efficiency
- Developed Dockerized modular services and configured NGINX as a reverse proxy, improving system scalability and deployment consistency
- Implemented secure authentication and authorization using JWT (RS256), OAuth2, and RBAC, ensuring controlled and protected API access
- Integrated Redis caching and rate limiting, reducing database load and improving API stability under high usage
- Managed PostgreSQL schema design, migrations, and version control using Alembic, supporting reliable deployments
- Built and documented production-ready APIs with validation, structured error handling, and OpenAPI (Swagger) documentation
- Collaborated with frontend, QA, and product teams to define API contracts and deliver scalable backend features
- Conducted code reviews and mentored developers on async programming, API design, and backend best practices

Software Engineer Intern

August 2023 - October 2023 (3 months)

Hyderabad

Worked on backend development and automation tasks, gaining hands-on experience in API design, database interaction, and image processing workflows.

Key Contributions:

- Developed backend modules using FastAPI and SQLAlchemy for user and project management systems
- Integrated third-party APIs (Pixabay, Unsplash) to enable dynamic asset generation workflows
- Built image-processing pipelines using OpenCV and Pillow for automated content generation

- Performed code analysis and debugging using tools like SonarQube, improving code quality and maintainability

Education

Vasireddy Venkatadri Institute of Technology, Nambur (V),
Pedakakani(M), PIN-522508(CC-BQ)

B-Tech, Electrical and Electronics Engineering · (July 2018 - June 2022)

Andhra Pradesh Residential Junior College Nagarjuna Sagar

Intermediate, Mathematics Physics Chemistry · (July 2016 - March 2018)

PMKR Gowthami High School
