PROFESSIONAL SUMMARY

Results-driven **Backend Developer** with **2 years of experience** designing and implementing scalable **RESTful APIs** using **Python** and **FastAPI**. Proficient in **asynchronous programming**, **SQLAlchemy ORM**, and **microservices architecture**. Skilled in **API security** standards (**JWT**, **OAuth 2.0**), **Docker** containerization, **CI/CD pipelines**, and **NGINX reverse proxy** setup. Actively expanding **full-stack** knowledge in **React**, **Next.js**, and **AWS cloud services**.

TECHNICAL SKILLS

- **Languages & Frameworks:** Python, FastAPI, Flask, SQLAlchemy ORM, Pytest
- **Databases:** PostgreSQL, SQL
- **API Development & Security:** RESTful APIs, JWT, OAuth 2.0
- **DevOps & Tools:** Docker, Git, GitHub Actions, Jenkins, Postman, NGINX
- **Architectures:** Monolithic, Microservices
- **Frontend (Basic):** HTML, CSS, JavaScript, React, Next.js

PROFESSIONAL EXPERIENCE

Backend Developer

KaryaHub Solutions | Hyderabad, India
July 2023 – Present

- Developed scalable **RESTful APIs** using **FastAPI**, **SQLAlchemy**, and **PostgreSQL**, improving overall system performance and reliability.
- Reduced API response times by **40%** through **asynchronous programming** and **SQL query optimization**.
- Designed and deployed **Dockerized microservices** behind an **NGINX reverse proxy**, enhancing application **scalability** and **modularity**.
- Implemented robust **API security** with **JWT (RS256)** and **OAuth 2.0**, using **Pydantic validation** to mitigate **SQL injection** and **XSS** vulnerabilities.
- Automated deployments with **CI/CD pipelines** using **GitHub Actions** and **Jenkins**, reducing release cycles by **25%**.

- Integrated **SonarQube** and **Snyk** for **static code analysis**, reducing critical vulnerabilities by **30%**.
- Enhanced internal and external API documentation using **Swagger** and **MkDocs**, improving developer onboarding time by **35%**.
- Collaborated within **Agile teams**, participating in **sprint planning**, **code reviews**, and **feature development**.
- Mentored **interns** on **REST API design**, **Git workflows**, and **best practices**, contributing to overall team productivity.
- Developed backend modules for **user and project management**, and automated image workflows by integrating **Pixabay** and **Unsplash APIs**.
- Enhanced image processing capabilities for marketing templates using **OpenCV** and **Pillow** libraries.

PROJECTS

InstaDe – Instant Design Generator

FastAPI, SQLAlchemy, Fabric.js, JWT, Redis

- Developed backend modules to support **OTP-based user login** and secure **JWT authentication**.
 - Created a **dynamic design engine** using **Fabric.js** for real-time marketing template rendering.
 - Improved backend performance through **Redis caching**, and integrated **email/OTP services** (Brevo, 2factor.io).
 - Successfully delivered the MVP and **scaled** the platform to generate **thousands of design assets** over a period of 7–8 months.
-

Efanish – School Management ERP

Async FastAPI, PostgreSQL, Pydantic

- Built **asynchronous** and scalable backend modules for **user**, **profile**, and **document management**.
 - Implemented strong **Pydantic validation** to improve security and defend against injection attacks.
 - Developed efficient **pagination** mechanisms for large datasets and collaborated using **Git workflows** to maintain high code quality.
-

SHOU – HRMS & Animation Pipeline Tracker

FastAPI, Docker, Jenkins, Microservices, HashiCorp Vault

- Engineered backend modules for **payroll**, **attendance**, and **animation pipeline tracking**, including attendance-based **salary calculations**.
 - **Migrated** a monolithic backend to a **Dockerized microservices** architecture integrated with **Jenkins-driven CI/CD pipelines**.
 - Integrated **SonarQube** and **Snyk** for static code analysis and securely managed secrets using **HashiCorp Vault**.
-

EDUCATION

B.Tech in Electrical & Electronics Engineering

Vasireddy Venkatadri Institute of Technology, Guntur, India

2018 – 2022 | **CGPA: 7.64**
